

10 March 1950

The Honorable John Davis Lodge
House of Representatives
Washington, D. C.

Dear Congressman Lodge:

Thank you very much for your letter of 8 March 1950 STAT
with the enclosure from [] STAT

As you suggest, we have had and seen a lot of []
letters and Digests before and, frankly, after putting in a lot
of analysis on them, we have come to the conclusion that the
accuracy of [] leaves a tremendous amount to be
desired. Most of his statements are made with a flat assurance
that they are true but in spite of lots of questioning of him
and some of his friends, we can get no other proof except a
flat assertion, which assertions have frequently proved to be
wrong.

If you wish, I shall be glad to come up and explain
much more fully all this thing at any time at your convenience.
Meanwhile, thanks for your continued interest in this organiza-
tion.

With best wishes, believe me,

Sincerely,

55

The Honorable Forrest C. Donnell
United States Senate
Washington 25, D. C.

Dear Senator Donnell:

In connection with your recent memorandum, I
am returning to you herewith the letter from [redacted]
[redacted]

STAT

It is noted that [redacted] desires to prepare
a master's thesis on the subject of the Central Intelli-
gence Agency. I greatly regret to state that because
of the nature of the work of this Agency there is
virtually no official public information available as
to its activities. For this reason, I would suggest
that it would not form a suitable basis for a master's
thesis.

STAT

There is a great deal of public information avail-
able on United States policy in Greece. In this connection
particular note should be made of publications of the
Senate Foreign Relations Committee and the House Foreign
Affairs Committee, and the Senate and House Appropria-
tions Committees in connection with the Greek-Turkish
Aid Program and the ECA.

Sincerely yours,

Senator Forest Donnell
Washington, D. C.

Dear Sir:

I would appreciate your assistance relative to ferreting some material on the Central Intelligence Agency and/or the US policy in Greece. I am interested in these topics from the point of view of writing a master's thesis on the one which offers the greater wealth of primary and complementary sources. I have already consulted several government printed catalogues but have been unable to obtain any promising leads.

Whatever aid you might furnish will be greatly prized.

Sincerely,

(Signed)
